Project - Make your Clock

Written by W.J.Pais

Popup - IYes.

Click X - close in properties, and save the file.

Give the file a name. Generally it will show as Form 1

Properties of the fields:

Time: right click on the box, and click properties. Click Format tab, and set Format to "medium time"

Do the same to date, and set the property to long date.

Quit is a macro. Click on Event tab, click at the right end of the row, showing "On Click" - option box to build macro appears. Select macro. the action is Close. Object is Form. Object name is the Form name you have given. Save and close.

Save.
