

A discovery of India through AIR Goa !

Written by W.J.Pais

Friday the 4th of August dawned, and as I switched the All India Raio - Rainbow I was greeted in Saraswat Konkani and the rainbow started showing its colors, and I wonder if this is the policy of AIR all over India. If not, Goa is the real crown on the head of Mother India. ! It comes on 105.4 mhz on FM radio. Once you hear it, you will give up the television programme and the idiot box can rest in peace.

I am fortunate, that our chidren have chosen spouses from Brahman Saraswat family, Gujarati family, Punjabi family and a Kashmiri family, and from my vantage point I only see good people in these communities, and am surprised, why strategies of hatred are picked by the political class instead of love that is pervading in all the souls inhabiting the Indian people !

I thank this blessing that has been given to our family, and we in turn want to turn the tide towards love of our neighbors and spread greater understanding between people. Always good will prevail in the end. So we should not lose hope, as the Great Spirit has not given up on us so far. Even the obstinate ones will see a glimpse of his love and forbearance one day. Let us not discard our unity of purpose.

Let me thank all who have come in touch with me, in the past and in my present. I find it just very beautiful relationship of people.
